

Environmental - Policy

Doc Number: ENV-POL-001
Doc Title: Environmental Policy Statement
Revision Number: 12.0

Tullis Russell Coaters Limited is part of the Tullis Russell Group with a manufacturing site at Bollington (UK). The Company produces designs and manufactures speciality coated substrates and related products for a variety of global markets

The company is committed to continuous improvement in its Environmental performance taking account of the impact of its activities on the environment and is committed:

- To recognise environmental issues as fundamental to the business strategy to be represented by the Managing Director at board level
- To maintain appropriate environmental management systems which effectively implement this Environmental Policy
- To publicise the Environmental Policy and Environmental Management System to employees, encouraging their participation in the Company's continuous improvement programmes
- To ensure that employees continually acquire and develop a working knowledge of environmental issues, which relate to the business, and their own duty of care in connection with them
- To increase the efficiency of use of energy, materials, water and other natural resources
- To comply with legal and other requirements, co-operating fully with relevant statutory bodies and trade associations. In addition, the Company will endeavour to reduce, and where practically possible, prevent pollution
- To record, monitor and review the Company's operations, set and review objectives and targets for continuous improvement

Fergus McKendrick

Managing Director
