PRODUCT INFO

Texitran Digital DT is the latest addition to the Tullis Russell family of cold peel textile decal papers.

Certified by Ricoh

Texitran DT is a unique digitally printed paper that is suitable for digital dry toner printing giving the printer the flexibility to produce high-quality cold peel textile decoration decals for any garment type.

Features

- Suitable for dry toners
- Unique peel release system
- One side digital receptive coated
- Backside anti-block treatment
- Available in different sizes

Benefits

- Versatile digital print design options
- Cold peel with clean release
- Superior colour reproduction
- Excellent stability and lie flat
- Suitable for all print formats

SPECIFICATIONS

The cold peel flexibility of Texitran Digital DT makes it suitable for the manufacture of tag-less care labels, workwear decals, sportswear numbers and badges, t-shirt decals and much more – with the benefit of digitally customising every individual motif.
